Reminder of the Rules! **No parachutes or balloons!**

- **At least ¼ of the egg should be showing at all times so the children must not completely cover the egg with any material.**
- It should be possible to clearly see a part of the egg as it is housed in the design.
- The design must not include changing the egg in any way (no tape or nail polish on the egg!).
- The container must be able to be opened once dropped so that the condition of the egg can be checked!
- **The inside materials must be designed to allow a raw egg to be easily inserted and removed.**
- The eggs will all be dropped from height onto the school playground!

I am sure it will be another

CRACKING challenge!

Good luck!
