

Week beginning 1st June Year 2

This week's lessons focus on mass and capacity.

Lesson 1

This lesson focuses on the ten times table. You will be counting in 10s and using your knowledge of the ten times table to solve problems involving multiplication.

Lesson 2

In this lesson you will be making equal groups and sharing. This is an introduction to dividing. You can use your knowledge of multiplication to help you solve these problems.

Lesson 3

In this lesson you will be looking at making equal groups by grouping. It would be helpful if you had some counters to help you with this lesson.

Lesson 4

In this lesson you will be looking at odd and even numbers. You will need a dice for today's lesson.

Lesson 5

Use white rose to find the problem solving activities for today.
