

Using doubles

I'm shopping for new *accessories* to add to my collection. I can quickly fill my shopping basket if I *double* the amount.

$2 + 2 = 4$

$2 + 3 = 5$

Double 3 is 6.

Time to *shop 'til we drop*. Look at all these fabulous shoes! Write the answers to the sums in the boxes.

$3 + 3 = \square$

$4 + 5 = \square$

$2 + 2 = \square$

$1 + 2 = \square$

$5 + 5 = \square$

$2 + 3 = \square$

2

Draw more dots on each of these stylish bags to match the total in the box below.

9

5

11

More bags, please!

Add sticker here!

Now :

List all the numbers from 1 to 20 and double each one.

Write the list in your book like this:

1 doubled is 2

2 doubled is 4

And so on...

You can use your numicon to help you work out the tricky ones Freya.
