

# 2 times table

I'm at the **zoo** with my sisters. We're counting pairs of exotic animals. The numbers in the **2 times table** can be shown as a pattern.

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

Try to learn the 2 times table by heart.

$$1 \times 2 = 2$$

$$2 \times 2 = 4$$

I love spotting cute animals! Draw lines to join the questions to the correct answers.

3 x 2      8 x 2      8      1 x 2

10      14      18      20      4 x 2

5 x 2      6      4      16      6 x 2

2      2 x 2      7 x 2      12      10 x 2

a. Write a calculation for the answer that is left .....

The parrots are flying really fast. Answer these questions as fast as you can. Ask someone to time you!

- |                         |                          |                         |
|-------------------------|--------------------------|-------------------------|
| a. $3 \times 2 =$ ..... | b. $2 \times 10 =$ ..... | c. $8 \times 2 =$ ..... |
| $7 \times 2 =$ .....    | $2 \times 2 =$ .....     | $2 \times 6 =$ .....    |
| $4 \times 2 =$ .....    | $2 \times 8 =$ .....     | $9 \times 2 =$ .....    |
| $1 \times 2 =$ .....    | $2 \times 5 =$ .....     | $2 \times 7 =$ .....    |
| $6 \times 2 =$ .....    | $2 \times 9 =$ .....     | $5 \times 2 =$ .....    |

which animal is your favourite?

Go on, have a sticker!

# Multiplication facts

It's good to count in pairs or groups of 5 or more, as sometimes zoo animals move too quickly to count 1 at a time.

Try to learn the 2 times, 5 times and 10 times tables.

Use this grid to help you.

x	1	2	3	4	5	6	7	8	9	10
2	2	4	6	8	10	12	14	16	18	20
5	5	10	15	20	25	30	35	40	45	50
10	10	20	30	40	50	60	70	80	90	100

Cover the grid above. Now answer these questions as fast as you can. Check your answers, then try to beat your score. I like playing this with my sisters! Can you count the animals as quickly as my sisters?

- a.  $3 \times 5 =$  .....      b.  $4 \times 2 =$  .....      c.  $2 \times 2 =$  .....
- $6 \times 2 =$  .....       $7 \times 10 =$  .....       $9 \times 10 =$  .....
- $4 \times 10 =$  .....       $9 \times 2 =$  .....       $6 \times 5 =$  .....
- $8 \times 2 =$  .....       $5 \times 5 =$  .....       $2 \times 10 =$  .....
- $4 \times 5 =$  .....       $3 \times 10 =$  .....       $7 \times 5 =$  .....

We counted all the animals, but a baby elephant splashed water over our notes. Write the digits 1 to 9 in the boxes to make each sum correct.

$2 \times \square = \square$        $\square \times 5 = 20$        $\square 0 \times \square = 80$

$\square \times \square = 35$        $\square \times \square = 40$        $\square \times \square = 18$

super effort!
