9th February

Year 5 - All green questions are basic maths for you and you should now be completing them easily.

Orange questions should now be being attempted and you should be getting them right most of the time now.

Purple questions are trickier, and include the fractions work we have been looking at the last few weeks - so have a go.

Those year 5s who are getting better can try the whole lot. Mark where you get to in 30 minutes then continue to finish.

Year 6 - the whole lot in 30 minutes is your target now but I have added much more challenge now so it will be tough.
