

## **Class 4 - Persuasive Writing - Pandora Trips**

**Mr H's Guidance Example: Activity Section in Brochure**

### **Pandoran 'Forest of Life and Light' Experience**

Why not choose one of our unforgettable land safaris, through the teeming forests of Pandora (both in daylight and the spectacular illuminated Pandoran night-time). As you will no doubt have heard, these green lungs of the planet are filled with a myriad of unbelievable beasts and life-forms unlike anything you could once see on earth.

You will travel through the dense vegetation, fully cocooned and catered for in our state of the art planetary 'Recon' vehicles. Exploring in comfort, your vehicle is fully air-conditioned and capable of travelling smoothly through all types of terrain. Your experienced guide will expertly seek out the most mesmerising sights of alien creatures in their own natural habitat .

See Direhorses grazing in luminescent forest clearings ; gasp in awe as herds of Hammerhead Titanotheres move majestically through forest glades seeking their drinking hole; and gasp as your transport carries you as close as one dares (fully protected behind 6 inch viewing screens) to the terrible beauty of the jet black, ferocious Thanator.

And why not upgrade for that magical night tour: as the sun drops, set out through fluorescent forests of pure light on a dreamlike journey - see the hidden colours of Pandora's flora and fauna. Will you ever experience such an memorable, inspiring, life changing experience. This is all waiting for you on one of our Pandora Eco 'Forest of Life ' activity options. Experience the natural world as never before - on the other side of the galaxy.
