

The Quest Begins...

It has been a strange time recently, and you have had strange dreams, of lost cities, and powerful, lost artefacts ... and ancient curses... and a riddle repeating in your head, over and over:

“A tree stands near to the mother pond. 35 strides south from this point lies another great oak - the Tree of Fate. Here, fate will find you and send you on a quest.. a quest for Lost Star of Chakool”

Now, begin your journey...

Find Wreningham School- this is where your journey begins.

1. Travel along Church Rd
2. Turn left at Hethal Rd and travel north
3. When you get to the house with no stairs, turn left
4. When you get to the house of no colour,
Leap the pond into the wood and travel west
5. Find the mother pond, not the daughter, in the centre of the wood,.
6. Find the nearest fully grown tree to the mother pond.
The Tree of Fate is 35 metres exactly from here.
7. How to find your 35 meter zone:
Click 'Pictures' - *then choose* 'Buffer tool' (the small box in the bottom corner - circle with a radius in it)
8. Set the buffer to 35 metres.
9. Now click in the dead centre of the tree - one tree in the south, and one tree alone will be cut through by the edge of the 35m buffer line. This is the Tree of Fate. We now need its location on the earth.
10. Now click on the Information box - hold the cursor right over the centre of the Tree of Fate and write down the Lat/Long (decimal) and send it to me to see if you have found the next clue.

Be patient: If you are correct, you will be sent your next instructions, so watch your inbox.
