

Thank you Mrs Rees for this lovely idea!

### Nature Art Frames

(<https://childsplayabc.wordpress.com/2020/06/08/nature-art-frames-2/>)

#### Materials

- piece of cardboard
- pen
- scissors

#### Method:

- Draw a simple shape or picture. Your shape or picture should have at least 1- 2 easy to cut out sections that you can then look through.
- When you have cut out the see through sections of your frames, take them outside and hold them up against any of the interesting natural things you can see, like the sky, trees, flowers or grass for example.
- The picture you see or create with the frames changes as you move the paper around.
- Take photos to capture some of your pictures and compare the differences in backgrounds.
