Class 3's home learning, week beginning 6th July 2020

## Maths - year 4

### Choice #2 - Lesson 5

#### Maths Outdoors

This past week you have been learning about

- different types of angles (right, acute, obtuse)
- triangles (equilateral, scalene, isosceles)
- quadrilaterals (rhombus, parallelogram, trapezium, rectangle, square)

Your challenge is to go outdoors and find as many of the above as you can. Look at trees, flowers, roads, buildings, garden sheds, etc. You could create a label for each of the above and then take some photos.

If you're able to, why not create a PowerPoint presentation to show off your learning? Then email it to [office@wreningham.norfolk.sch.uk](mailto:office@wreningham.norfolk.sch.uk) for us to have a look.
